

QUAKERTOWN PEDIATRICS

To the Parents of our Patients:

It has come to our attention that some insurance companies follow a **well-child schedule** that is different from what we practice. In order to help you receive the maximum benefits from your insurance you may need to check your individual plan to see at what age your child's well care visits are covered.

Generally we see newborn babies for a weight check. Physicals would then be scheduled at 1, 2, 4, 6, 9 and 12 months for the first year.

In the second year of life we see the child at 15, 18, and 24 months of age.

In the third year of life we see the child at 30 months and 36 months of age.

We then recommend that your child be seen for yearly physicals.

If you would like to adjust your child's wellness schedule to follow your insurance company's recommendation, please let our office know. We will make every effort to accommodate your request.

Sincerely,

Eduardo A. Cevallos, M.D. Rima L. Strassman, M.D., F.A.B.M.
